

# COOL **SAVINGS**<sup>TM</sup> PROGRAM AIR CONDITIONING REBATE

## REBATE PROGRAM IS FOR THE REPLACEMENT OF AIR CONDITIONERS DAMAGED IN THE FLOOD OF JULY 29, 2013

To lessen the financial impact, the cool **SAVINGS**<sup>TM</sup> is being extended to those homeowners who had to replace their air conditions due to the flood of July 29, 2013.

Today's energy efficient air conditioners use as much as 40% less electricity than older models. This reduced consumption results in major savings, with the same or greater levels of comfort.

If you own your home or small business and your air conditioning unit is 10 years or older, contact us today and ask for an information packet.

We offer rebates to customers who install high efficiency HVAC equipment and do not require you have an energy audit to qualify.

### REBATE ITEMS

- Central Split Systems and Package Air Conditioners and Heat Pumps (14 SEER/11.0 EER or greater)
- Mini-Split Systems Air Conditioners and Heat Pumps (14 SEER/11.0 EER or greater)
- Ground Source Heat Pump

### FUNDING

Funding is limited and is available only to City of Lindsborg energy customers on a first-come, first-served basis. The offering is subject to change without notice.

COOL **SAVINGS**<sup>TM</sup> - save energy. save money.

### AIR CONDITIONING – REBATE LEVELS

Central Air Conditioners or Heat Pumps

Residential Existing Construction & Small Business – 1.5 Ton to 3.0 Ton

<b>SEER</b> 14.0	<b>EER</b> 11.0	<b>Air Conditioner Rebate</b> \$300	<b>Heat Pump Rebate</b> \$300
---------------------	--------------------	--	----------------------------------

Central Air Conditioners or Heat Pumps

Residential Existing Construction & Small Business – 3.5 Ton to 5.0 Ton

<b>SEER</b> 14.0	<b>EER</b> 11.0	<b>Air Conditioner Rebate</b> \$500	<b>Heat Pump Rebate</b> \$500
---------------------	--------------------	--	----------------------------------

## AIR CONDITIONING REBATE PROGRAM GUIDELINES

### AIR CONDITIONER REPLACEMENT PROGRAM FOR THOSE AIR CONDITIONERS DAMAGED BEYOND REPAIR IN THE FLOOD JULY 29, 2013

**BACKGROUND:** Lindsborg is a community that has a peak electric load that is driven by residential air conditioning electric demand. The air conditioning electric demand can cause an increase in peak demand by as much as 3.5 MW. This increase in MW demand without a corresponding increase in energy (kWh) has a dramatic impact on the wholesale purchase cost. The increase in cost is recovered either through a Power Cost Adjustment (PCA) or through a rate increase.

**PURPOSE:** The goal of the program is to offer financial incentives to City of Lindsborg electric customers to replace older air conditioning units with new energy efficient units. The energy efficient units will reduce energy consumption to City of Lindsborg while maintaining the same level of comfort. Furthermore, the reduced consumption will translate into cost savings because of reduced energy usage. This reduced energy demand will lessen the price volatility created by peak demand, therefore reducing the cost pressures on the Power Cost Adjustment (PCA) and rates.

### PROGRAM GUIDELINES

1. Replacement for air conditioning units damaged beyond repair in the flood July 29, 2013, qualify for the rebate incentive.
2. Installation address must be within the City of Lindsborg service territory and be a City of Lindsborg electric customer.
3. Replacement units must be Energy Star® certified.
4. The air conditioning efficiency must be listed on the [www.ahrinet.org](http://www.ahrinet.org) website.
5. AHRI (Air-Conditioning, Heating & Refrigeration Institute) Certificate for air conditioning units' efficiency must accompany the application.
6. Air conditioning eligible units must have a minimum SEER (seasonal energy efficiency ratio) of 14.0 and an EER (energy efficiency ratio) of 11.0.
7. HVAC 1.5 Ton to 5.0 Ton units are eligible for the program.
8. HVAC eligible unit rebate applications must be received no later than 60 days after installation.
9. Building permit required for HVAC systems.
10. HVAC systems installed with electric resistive heating elements do not qualify.
11. Funding for this program is limited, therefore rebate incentives are on a first-come, first serve basis.

**Rebate Application for Replacement of Air Conditioners Damaged in the Flood of July 29, 2013.**

**CITY OF LINDSBORG  
AIR CONDITIONER REBATE PROGRAM  
Request for Incentive Payment**

- Incentive payments will be made to the purchaser of the qualifying equipment after verification of the efficiency and onsite inspection by a City of Lindsborg representative, to assure compliance with program guidelines. In cases of dispute, the owner of the installation address will be given the incentive.
- To receive the air conditioning or heat pump incentive, the unit must meet both the SEER (Seasonal Energy Efficiency Ratio) and the EER (Energy Efficiency Ration) minimum requirement.
- The process from the City of Lindsborg's receipt until payment, takes 4 to 6 weeks. Incomplete or incorrect information will delay this process and may cause your Request for Incentive Payment to be denied.
- Mechanical inspections for all installations requiring full permits must be arranged through the Building Inspection Division at (785) 227-3428. HVAC equipment must be installed in accordance with the City of Lindsborg's Energy / Mechanical / Electrical Codes.
- Commercial Customers with A/C units of 5.0 or less tons will qualify regardless of Electric Rate Class.
- Mail to: CITY OF LINDSBORG "cool **SAVINGS**", P.O. Box 70, 101 S Main, Lindsborg, KS 67456-0070 or Fax to (785) 227-4128.

**Funding for these programs is limited.  
Programs are subject to change without notice.**
