Date

# Design Principles Analysis

The City of Lindsborg adopted its Appearance Guidelines in August 2024 via Ord. 5446. The Design Principles define what is considered unacceptable design for buildings, signage, and public art. By defining unacceptable design, and establishing them within a "not" framing, the Design Principles can be utilized as boundary conditions for acceptable design, creating a defined space for creativity without prescribing what buildings, signage, and public art must look like. The approach sets guidelines while embracing and encouraging the abundant creativity found within the community.

**For use by  
Design Review  
Board**

**Directions:**  
Check yes or  
no based on  
the analysis  
provided.

**Directions:** Please describe why you feel your design **does not** violate each of the Design Principles listed and defined below:

In a well-design and aesthetically pleasing Lindsborg, the community is not subject to buildings, signage, and/or public art that ...
